

CUSTOMIZED SALARY DATA ANALYSIS REQUEST FORM

As publishers of **THE HMO SALARY SURVEY, MANAGED CARE STAFFING RATIO UPDATE** and the **ALLIED HEALTH AND PHYSICIAN COMPENSATION & BENEFITS SURVEY**, *Warren Surveys* receives frequent requests from human resource personnel regarding salary information customized in a segmented format to meet their specific salary administration needs. In response to these requests, Warren offers our ***Customized Salary Data Analysis***. This service is available on a fee basis with the cost dependent upon our current database and the format and information you request. All data analysis is provided within Federal Anti-trust guidelines. To order a customized data analysis, simply complete the information below and return it to Director of Research at warreninfo@demarcowarren.com

Name: _____ Title: _____
Company: _____
Address: _____
City: _____ State _____ Zip _____
Phone :() _____ FAX: () _____
Email Address _____ Web Address: _____

Segmentation Information:

Using the guidelines below, please provide us with the specifications you would like to see in the special analysis:

1. Geographic/Regional Scope: _____
2. Membership size: _____
3. Plan/Model type: _____
4. Other: _____

List Positions:

Attach second page if additional space needed.

Upon receipt of your request, we will review our database to determine if we can meet your needs and/or suggest modifications. A sample format and estimated cost are then submitted to you for approval. A typical request can be turned around within 7 - 10 business days if no additional research is required. Our fee is \$125.00 per hour plus a \$300.00 set-up fee.

* We do not conduct special data analysis for consulting firms, associations or any other non-participating organizations.

Warren Surveys is a service of DeMarco & Associates, Inc. and is the sole owner of the most comprehensive information database on HMO, Managed Care as well as Allied Healthcare and Physician salaries in the United States. All information has a Warren Surveys copyright.
